PROFILE

Dedicated and results-driven Software Engineer with 5+ years of hands-on experience in designing, developing, and optimizing backend systems using Java. Proven ability to build scalable, high-performance applications with Spring Boot and Quarkus, while collaborating effectively with diverse teams. Passionate about continuous learning, system improvement, and delivering impactful software solutions.

WORK EXPERIENCE

2018 - 2019
UpWork
Software Engineer | Remote
- Bug fixing and optimization for backend systems.
- Mini projects involving search, Kafka, and Docker.
- Delivered reliable solutions based on client needs.

2022 - 2023
European University of Armenia
Java Lecturer
- Delivered engaging and comprehensive lectures on Java and C++ to undergraduate students, covering core concepts.
- Designed and facilitated practical lab sessions to help students gain hands-on experience in Java development.
- Keep up-to-date with new programming developments.

2023 - 2024
Picsart Academy
Software Engineer / Practice Lead
- Developed and maintained software applications using Java and Node.js.
- Collaborated with a team to design, implement, and deliver innovative projects.
- Participated in code reviews, troubleshooting, and debugging to ensure high-quality solutions.
- Enhanced teamwork, communication, and problem-solving skills through real-world project collaboration.

2024 - Present
Polixis
Software Engineer
- Developed and optimized software solutions for processing large-scale JSON data using modern Java technologies.
- Designed and implemented search and big data system architectures, focusing on scalability, efficient indexing, and data retrieval.
- Worked extensively with Redis and MongoDB to build scalable data storage and caching layers for high-throughput applications.
- Built and optimized backend services using Spring Boot and Quarkus, delivering robust, enterprise-grade solutions.
- Applied performance tuning and optimization techniques to improve system reliability, responsiveness, and resource utilization.

EDUCATION

2021 - 2025
Yerevan State University
Bachelor of Informatics and Applied Mathematics
Specialization: Information Security

2022 - 2023
Picsart Academy
Computer Architecture
Object - Oriented Analysis and Design
SQL / NoSQL Databases

2025 - now
Yerevan State University
Master's of Mathematical and Software development of Computing Machines, complexes, Systems and Networks

SKILLS

- Java / Reactive Java
- Spring Boot / Quarkus
- SQL / NoSQL
- Redis
- Object-Oriented Analysis
- Data structures
- Algorithms
- Design Patterns
- Computer Architecture
- Git / GitHub / GitLab
- Docker
- NodeJS
- Fast Learner
- Time Management
- Problem Solving

LANGUAGES

- Armenian - Native
- English
- Russian
